

## **SPARKLE Thunderbolt™ 5 eGPU Creator Station, Thunderbolt™ 5 80/120 Gbps, Built-in NVIDIA RTX 3060 12GB, USB 3.2 & 2.5 Gbps Ethernet Ports, Windows 11/10 Compatible, TCX-280DF**

Elevate your creative workflow with the Creator Station, the ultimate Thunderbolt 5 external GPU box tailored for high-end content creation. Featuring a built-in GPU and four DisplayPort 1.4 outputs, plus an ultra-fast Thunderbolt 5 downstream port, it empowers you to drive up to five displays simultaneously for an expansive, uninterrupted canvas. Beyond visual mastery, the Creator Station delivers robust Power Delivery (PD) to charge your pro-grade laptop through a single cable, ensuring your workstation remains clutter-free while providing the raw power needed for intensive video editing, 3D rendering, and multitasking.
